EXPERIENCE

Senior Product Designer II · Rubrik

Mar 2021 – Present

Palo Alto, CA

- Led 0→1 design for Rubrik Agent Cloud, an enterprise control layer to monitor, govern, and remediate autonomous AI agents; launched to general availability in March 2026 and already at multi-million ARR with 30+ customers.
- Led design across Rubrik's data security portfolio (DSPM, Data Threat Analytics, Data Security Command Center) as the company expanded beyond backup, spanning core security experiences and 0→1 initiatives through the 2024 IPO (NYSE: RBRK).
- Led 0→1 design for Rubrik's MSP experience — multi-tenant workflows and admin interfaces that unlocked a new enterprise market and contributed to multiple U.S. patents.
- Pioneered AI-assisted prototyping in the design org, contributing code and leading workshops.
- Mentored junior designers and interns through design reviews and feedback.

Product Designer · Securonix

Aug 2020 – Mar 2021

Dallas, TX

- Led design for the first iteration of Securonix's SOAR (Security Orchestration, Automation & Response) platform, enabling security admins to build automated responses to critical threats.
- Established a foundational design system.

Product Design Intern · Wayfair

Jul – Aug 2020

Boston, MA

Improved the design and information architecture of product detail pages on wayfair.com.

User Experience Intern · Cisco Webex

Jun – Aug 2019

San Jose, CA

Worked with the User Research team to assess Webex's usability and deliver strategic design recommendations.
